

BERING SEA DISPUTE.

Recent Arbitration Does Not Prove
Entirely Satisfactory.

SOME CHANGES SOUGHT.

Fight Over the Peckham Confirmation Is
Lively Today—Both Sides Profess Con-
fidence—Secret Conferences of Senators
on the Tariff Policy—Bland Bill Battle
Likely to Be Prolonged—Other News.

WASHINGTON, Feb. 15.—The sober judgment of both parties to the Bering sea arbitration discloses the fact that the agreement reached by the arbitrators is not entirely satisfactory to either the United States or Great Britain. It appears, however, that the dissatisfaction is based rather upon matters of detail than upon any objection to the broad principles upon which the arbitration was based. These matters are now the cause of some concern to the two nations, and for months past there has been much correspondence and many personal interviews between Secretary Gresham, Sir Julian Pauncefote and Minister Bayard with a view to their adjustment. Senator Morgan, who was one of the arbitrators in behalf of the United States, has also been frequently consulted by the state department officials in the effort to clear up certain cloudy points in the agreement. One of the flaws which Secretary Gresham is said to have found in the agreement is a failure to provide penalties for infraction of its provisions, and it would be of little avail to capture pelagic sealing vessels only to have them turned loose again upon the seal herds as soon as the cases could be brought before the courts. The secretary is trying to have this defect cured. The United States is able to punish sealers brought before its courts, but the Canadian law is defective, and thus an international agreement is desirable.

The Canadians also have a cause of complaint. They appear to have discovered at this late date that a rigid enforcement of the articles of agreement would destroy their seal fishing industry. They have brought great pressure to bear upon the British foreign office, with the result that Sir Julian Pauncefote is laboring strenuously to mitigate the forfeiture of the Canadians by securing a considerable restriction of the limits of the close zone around the seal islands, within which seals may not be taken by vessels, and a shortening of the closed season, which now extends from the first of May until the last of August.

Necessarily some time is required to complete the negotiations, and pending this conclusion the British government is making an effort to secure a recall of the modus vivendi under which operations in the seal waters were governed last year.

But this suggestion has further complicated the subject, as it touches the rights under their lease of the North American Commercial company, so that the company has entered an energetic protest against the renewal of the modus.

Meanwhile, that there is need for a speedy agreement of some kind is evidenced by the frequency of Sir Julian Pauncefote's visit to the state department.

SEIGNIORAGE FIGHT.

Effort to Get a Vote Will Prolong the
Contest For Several Days.

WASHINGTON, Feb. 15.—All efforts to agree upon a time for closing the debate upon the Bland bill have so far failed, and it is still proceeding without limit. Mr. Bland will probably permit this to go on until tonight, as there are quite a number of gentlemen who insist upon their right to be heard. The opponents of the measure have decided that they will insist upon a quorum of the advocates of the measure being present at every stage of the parliamentary procedure hereafter, so that a motion to close the debate will require a quorum of those who are in favor of it. There is a probability that this will necessitate an adjournment in absentees, and under such procedure the fight will be prolonged to the end of this week and possibly longer.

Mr. Raynor and some of the other Democrats who are leading the opposition still insist that the bill can be beaten, but Mr. Tracy, who is in charge of the opposition on the Democratic side, frankly confesses that he believes that the bill will pass if it reaches a vote. As to whether it would be vetoed, however, he gives no opinion. The debate has been without startling incident of any kind.

Usurpation of Rights.

The entire time of the senate yesterday was consumed in the discussion of the house bill compelling the Rock Island railroad company to stop its trains at the new towns of Enid and Round Pond in the Indian territory. The measure is specially championed by Senator Berry of Arkansas, and is proving a subject of great attention, as some Democratic senators see in the proposal to exercise congressional power a usurpation of rights. No action was reached on the bill, but a vote may be taken today.

Peckham's Fate.

WASHINGTON, Feb. 15.—The fate of Wheeler H. Peckham, Mr. Cleveland's second nominee for associate justice of the supreme court, will probably be determined at this afternoon's executive session. There are indications that he will be defeated.

Senator E. J. McLaurin of Mississippi is expected to arrive today, and it is supposed that he will be sworn in in time to participate in the executive session this afternoon. His first vote of importance will be either for or against the confirma-

tion of the nomination of Mr. Peckham. He professes to know now just how he expects to vote, but the opponents of confirmation are very hopeful of securing his assistance because of the statements attributed to him in published interviews. Those who know him best say that his vote will in all probability be controlled by the showing that will be made as to Mr. Peckham's consistency as a Democrat. The friends of Judge Peckham assert that Senator George's change to Peckham's support will have a strong influence with Mr. McLaurin.

Ordinarily so much importance would not be attached to the vote of any one senator, but the leaders on both sides of the Peckham contest are so uncertain as to the result, and so anxious about it, that they are straining every effort to hold what they have and gain all that may be possible. Senator Pugh, chairman of the judiciary committee, says he believes the majority against Peckham will be from four to eight. Other opponents of the confirmation profess to be equally hopeful, but they do not on this account abate their vigilance. Indeed, the day in the cloakrooms and corridors of the senate has been given up almost wholly to the Peckham nomination.

TARIFF POLICY.

Democratic Senators Engaged In Secret
Conferences.

WASHINGTON, Feb. 15.—Senators Vest, Jones (Ark.), Gorman, Ransom and Cockrell were in conference yesterday and at times called in other Democratic senators for consultation. The senators who took part in the conferences were exceedingly uncommunicative, but it is known that they had under consideration the Democratic policy with reference to the tariff bill and that the sugar schedule engaged the greater share of their attention. Their efforts were in the direction of harmonizing the Democratic party. While no decision was reached, it is believed by those well informed that the conference is likely to result in the placing of a duty of a cent a pound on sugar.

A large delegation from the Textile Workers' tariff association of Philadelphia, under the guidance of Representative Harmer, visited the capitol yesterday and made an unsuccessful effort to secure a hearing before the senate committee on finance.

Valentines For Hoosiers.

WASHINGTON, Feb. 15.—The president sent the following nominations to the senate yesterday: John F. Eberlein, Mishawaka; Steve F. Rogers, Greensburg; Warren T. Drake, Kentland; Albert Sahn, Indianapolis; Fred J. Fife, East Chicago.

The Indianapolis appointment has been a much discussed one and is the result of charges of offensive partisanship against Postmaster Thompson. Mr. Sahn has been a resident of Indianapolis all his life and the appointment comes on his 35th birthday anniversary. He was recently chosen as president of the State Bank of Indiana.

Increased Gold Output.

WASHINGTON, Feb. 15.—Returns received at the treasury department indicate that the gold output for 1893 will reach the almost unprecedented amount of \$37,000,000, an increase over 1892 of \$4,000,000. In Colorado the output has increased from \$3,000,000 in 1892 to \$5,000,000 in 1893, while the gains in other gold producing sections are unusually large.

Riker Renews His Suit.

WASHINGTON, Feb. 15.—Carroll L. Riker of Chicago yesterday afternoon presented an amended petition to Judge Bradley of the district court for a mandamus to compel Secretary Carlisle to allow him to a portion of the \$50,000,000 bond loan. In his petition Mr. Riker says that since filing the original petition he has obtained additional information on the bond issue.

HIS CLOTHES ABLAZE.

Railroad Trackwalker Robbed and Set
on Fire by Tramps.

COVERED WITH KEROSENE.

John Drury the Victim of a Most Dastardly
Outrage Near Hamilton, O.—He Is Now In Mercy Hospital With Little
Chance of Recovery—No Clue to the
Assailants.

HAMILTON, O., Feb. 15.—John Drury, aged 35, married and living at Schenck's Station, lies in the Mercy hospital at this city fatally burned, the result, as he claims, of a dastardly outrage committed by tramps at Lindenwald station. Drury is a trackwalker in the employ of the C. H. and D. railroad, who inspects the track between Schenck's Station, a few miles south of here, and this city.

He says that while about to enter an oil storage house at Lindenwald at 1:30 o'clock in the morning he was set upon by tramps, who threw kerosene over his clothing and then, after emptying his pockets of \$13, set fire to him and made their escape. A few seconds later he rushed across the street to the power house of the Lindenwald & Hamilton electric street car lines, his clothing all ablaze, screaming for help, which was rendered by the power house employees.

His back is one charred mass, the body being literally cooked. Dr. George Trebel, surgeon to the railroad of this city, has little hopes of his recovery. The identity of the assailants is not known.

OLD WOMAN SWINDLED.

Wealthy Jackson Widow Fooled by a
Metal That Looked Like Gold.

PHILADELPHIA, Feb. 15.—Mrs. Harriet Morrison of Jackson, Mich., a wealthy widow of 74 years, accompanied by Charles Helling, the husband of her adopted daughter, and Dr. Blanchard, the family physician, presented themselves at the United States mint with two heavy bars of metal which they supposed to be gold and worth \$30,000. The men carried the metal, which weighed 85 pounds, in a grip and the trio announced that "they had gold bullion to sell." The mint attaches made an assay of the metal and discovered that it was nothing more than a low grade of copper and zinc and worth but 8 cents per pound.

Thirteen years ago Mrs. Morrison advanced \$5,000 to a nephew, and recently a stranger came to her with the two cone shaped bars, which, he said, were mined by her nephew in British Columbia, and were worth \$30,000, and which the nephew wanted to give her as security for an additional loan. Mrs. Morrison paid the intermediary \$5,000, and then the trio mentioned above started east to sell the "gold." The old lady is greatly grieved over the swindle.

Important Indictments.

ST. LOUIS, Feb. 15.—Some important indictments have been found by the grand jury, one against Jail Guard James Kickaby, whom Train Robber Marion Hedgpath states aided him in his attempt to escape; Louis J. Silva, alleged embezzler of \$187,000 from the Rainwater-Bradford Hat company, and ex-City Attorney James K. Butler for shooting James Leary on Christmas last. Mrs. Kate C. Blood, who wrecked the Common Sense Building and Loan association, was also indicted.

BOMB-THROWER IDENTIFIED.

His Name Is Henry and His Antecedents
Anarchistic.

PARIS, Feb. 15.—The police announce that it seems to be definitely established that the Hotel Terminus bomb thrower is Emile Henry, and that he was born at Barcelona, Spain, Sept. 26, 1872, of French parents.

The identity of the bombthrower is now proved. His name is Emile Henry. He is a brother of Fortune Henry, who is now undergoing a term of imprisonment at Clairvaux for inciting to murder. They are sons of a man who was a member of the commune, and who was sentenced to death in Contumacious for being absent from court when his trial was called. He had fled the country and afterward died in Spain.

The anarchist, Sebastian Faure, Vaillant's friend, was at Clairvaux at the same time Fortune Henry, over whom Faure had great influence, was serving his time. Faure used to gather around him the anarchist prisoners and harangue them.

Inspector Buchatel, referring to his interview with Henry, said: "Henry remarked that he alone was responsible for the explosion in the cafe beneath the Hotel Terminus, adding that Vaillant was a child to put nails in his bomb in order to blow up the bourgeois. Henry also said that there was better material than that to be had, and he was surprised that his bomb did not have more effect than it did."

GUARDED AS A SECRET.

Expert Report on the Affairs of Charles
Foster Not to Be Made Public.

TIFFIN, O., Feb. 15.—Messrs. Doodlittle and Limbeck, the Cleveland experts who have been investigating the affairs of Hon. Charles Foster, have filed a report with the committee, but the matter is being kept secret. The report covers the past 10 years of the transactions of the banking house of Foster & Co. The committee, A. J. Wilson, James L. Mackey and Ira Cadwallader, who are all well known business men of Fostoria, represent the creditors of Foster and Foster & Co., and will hold the report, hoping by it to influence Mr. Foster to make a settlement. In no case will they make it public while certain suits, brought by individual creditors of Foster, are pending in the court of this county. It is rumored that a Cincinnati expert has been employed and that another examination of the books covering the entire 22 years of the life of the bank will be made.

CLEVELAND, Feb. 15.—Ex-Governor Foster's assignee has made public a statement. It shows the liabilities of Foster & Co. \$790,201.61; assets, \$88,892.60; real value of assets, \$43,310.85. Charles Foster's liabilities are placed at \$198,773.13; net assets \$115,486.58.

MICHIGAN'S MUDDLE.

Incorrect Footings on the Salaries Amend-
ment Getting People In Trouble.

DETROIT, Feb. 15.—George H. Bussey, chairman of the footings committee of the Detroit canvassing board of 1893, was arrested last evening. His arrest follows that of James G. Clark, another member, who is supposed to have confessed.

Today the secretary of the state, state treasurer and land commissioner must appear before Governor Rich to show cause why they should not be removed from office for negligence in allowing the returns on the salaries vote to be falsified when intrusted with the duty of making a true return as members of the state canvassing board. They have retained able legal talent.

LOVE STILL MISSING.

New York Bank Cashier's Whereabouts
Remains a Matter of Mystery.

ELMHURST, N. Y., Feb. 15.—No important clues as to the whereabouts of Cashier John W. Love, who disappeared last Thursday night simultaneously with an amount which has swollen to about \$110,000 of the money of the First National Bank of Watkins, have yet been obtained, although the bank management has at last sent out a circular offering \$5,000 for his arrest. Although few people have any faith in the story that he committed suicide, there is a constant effort to buoy up his theory, and accordingly half-hearted preparations have been again made to search the lake.

INSURED AN OLD NEIGHBOR.

Ohio Man, Insured by an Unknown
Woman, Makes a Terrible Mistake.

CIRCLEVILLE, O., Feb. 15.—For several nights past the family of Charles Cook have been annoyed by the visits of a mysterious tall woman, dressed in black and heavily veiled. She made her visits to conform to Cook's absence. On her last visit she left a letter under the door stating that she would have Cook or die. Last evening Cook and his family were seated around the fireplace when they were startled by three sudden taps on the window. Looking up Cook saw the outlines of a woman, and seizing a hammer hurried it through the window at her. It struck the mark and the victim fell to the ground. The family rushed out, expecting to find their tormentor, but were horrified on finding Mr. Hawk, a neighbor and aged lady, who had come to make a call. She cannot recover.

COLORED HIGHWAYMEN

gers on the Fort Wayne Road.

ATTACK A VALPARAISO MAN.

The Desperadoes Flourished Revolvers
and Fired Into the Car Roof, but When
the Travelers Prepared For Resistance
They Sprang From the Train—Unfor-
tunate Death In Greensburg.

CHICAGO, Feb. 15.—Two colored highwaymen made a desperate attempt to rob the passengers in one of the day coaches of the 11:30 train on the Fort Wayne road soon after it left the Union depot last night. Just as the train was about to cross the bridge at Sixteenth street, where the engineer is required to run slowly, two colored men entered a day coach. A passenger who was in a seat near the door, and who was on his way to Valparaiso, Ind., was struck by one of the men a violent blow on the head while the other began to go through his pockets.

A dozen passengers witnessed the assault and went to the assistance of the Valparaiso man. The two colored desperadoes flourished their revolvers and fired several shots into the top of the car. Two of the passengers drew their revolvers and fired at the two highwaymen, and it is believed one of them was wounded. As soon as the passengers began to use their revolvers the two negroes sprang off the train. No arrests have yet been made.

PARIS CASE NOLLED.

Defendant Held In Bonds to Await Cor-
rection of Indictment.

FRANKFORT, Ind., Feb. 15.—The case of the state vs. John W. Paris, on change of venue from Howard county, ex-Senator J. V. Kent special judge, was called yesterday, and a motion to quash was overruled. The state then moved to enter a nolle because of a variance between the indictment and the evidence of the prosecuting witness. The indictment charged that money was deposited in the Greentown bank, while the testimony will show only a check deposited. A nolle was then entered and the defendant was held under \$1,000 bond to the March term of the circuit court.

Stone Step.

GREENSBURG, Ind., Feb. 15.—Adam Stegmaier, a well-known business man, while coming downtown from his residence to his business room yesterday, slipped and fell, striking the back of his head on a stone step, killing him instantly. The suddenness of his death is a great shock to the community.

Decision In a Will Case.

ANDERSON, Ind., Feb. 15.—After occupying the attention of the court for four weeks the Vermillion will case was decided yesterday, the jury returning a verdict finding for the plaintiffs and assessing damages at \$34,307.68. This suit was for an accounting for \$75,000 of the estate of Jesse Vermillion, deceased. The plaintiffs are Samuel and Channey Vermillion, all sons of Jesse Vermillion. The jury also found that the deceased was of unsound mind since 1885. The suit will be followed by the same plaintiffs suing the same defendant for an interest in 1,600 acres of Madison county real estate.

BEN LEVISON'S SLAYERS.

Jacob and David Lazer's Unprecedented
Crime Creating Interest.

LITTLE ROCK, Feb. 15.—The trial of Jacob and David Lazer, brothers and Jews of prominence under indictment for murder for the assassination of Ben Levison, a prominent Jewish merchant of this city, last July, is on at Perryville. Over 70 witnesses are in attendance.

The Lazer brothers entered the wholesale liquor and cigar store of Levison on the evening of July 22 last, and with scarcely a warning shot and killed him. The Lazer's allege in justification the defense of a sister's honor. The fact that the assassination of one Jew by another is a crime without precedent makes the trial one of unusual interest. The parties interested have relatives in Cincinnati, Philadelphia and New York.

Purvis Hanging Case.

JACKSON, Miss., Feb. 15.—Attorney General Johnson, in the name of the state, has made a motion in the supreme court in the case of Will Purvis to have the question of his future hanging settled in order to have a new sentence either by the supreme court or circuit court. The motion will be presented to supreme court next Monday.

TEN YEARS FOR A PEORIA YOUTH.

Decided to Be Sane and Punished For
Shooting His Father.

PEORIA, Ill., Feb. 15.—On the last day of January Robert Jones entered McCoy's wholesale grocery store on South Washington street and without a word of warning fired four shots at his father, William Jones, three of which took effect. His left eye was shot out and other serious injuries were inflicted from which he has not yet sufficiently recovered to leave the hospital. The son was indicted and was yesterday arraigned in the circuit court on a charge of assault with intent to kill. He pleaded guilty, but the judge refused to accept the plea and appointed a commission of three physicians to test his sanity. They subsequently reported he was sane and did the act through pure maliciousness. The plea of guilty was then accepted and he was shortly afterward sentenced to 10 years in the Joliet penitentiary. This case is the most quickly disposed of case in this county in a number of years.

NO HOPE OF RESCUE.

Rescuers in the Gaylord Mine Driven
Back by New Caves In.

WILKESBAIRE, Pa., Feb. 15.—The rescuers at work in the Gaylord mine have not made much headway. At 3 o'clock yesterday there was another cave-in of the roof which wrecked the inside workings of the mine badly. The workers were compelled to retreat. Great fissures have now appeared on the earth's surface over the mine, and a number of houses are in danger of toppling over. It is estimated that the area affected by the cave-in covers 22 acres. The crowd about the mine is less demonstrative but no less eager and earnest for the faintest news that may come up establishing the fate of those below. Many prominent mine inspectors and engineers visit the scene, and it is the general opinion of those best able to understand the condition of things that all of the men must have perished either by being crushed to death or by suffocation.

Which Will Be Chosen?

CINCINNATI, Feb. 15.—The joint committees of the eastern and western Methodist Book Concerns, at their meeting yesterday, heard arguments by delegates from Indianapolis and Cleveland, which cities are rival candidates for entertaining the meeting of the next general conference of the Methodist Episcopal church. The place of meeting will be selected today.

Speaking of democratic deficits, the farmers will notice that there is a pretty big one in the prices of their wheat and mules.

THE New York Sun inquires "are the democrats men or mere euryomorpho chumps?" That's the word, just mere what d'ye call 'ems.

This is Lenten season, and owing to democratic financiering and incompetency, it is liable to be lengthened from forty days to forty weeks for most of the laboring men. Some of them began fasting long before Lent was due, and it was not on account of their religious ideas, either. It was a case of necessity. This democratic lent is liable to hold on until after the November election.

THERE comes an echo of the foot ball discussion from far Peru. An American now at Lima sends home a literal translation of a Lima newspaper's account of the last great foot ball game in New York. The correspondent assures the editor and his readers that homicide is no infrequent feature of the sport, and bids American critics of the Spanish bull fight keep silence hereafter for very shame.

THE hard times appear to be striking our neighboring city of Brazil rather hard these days, considering the number of failures in business there. We extend to our neighbors our sympathy in this democratic deal, and would suggest to our Clay friends that they join hands with Putnam in throwing off this year, so far as possible, this democratic mortgage on business. We are going to make a desperate effort in Putnam to brighten up matters, and trust our neighbors will do likewise.

E. M. Nixon, of R. G. Dun & Co.'s, has returned from his trip through northern Indiana. He says that business is picking up some in that region since the Wilson bill has come to be considered—a settled fact. He says the glass industry will have to suffer considerably that despite labor unions, wages will come down.

He Forgets His Position.

A newspaper man that forgets he is on the free list is expected to write two dollars' worth of puffs for fifty cent tickets to balls and entertainments, and has one or two other blessings that the rest of the people do not enjoy, makes the following wail:

"Man is born of a woman, spanked by the nurse, jerked bald-headed by cranky schoolmasters attended with a select and varied assortment of troubles. He lingers on luxury's lap until his paternal ancestor fires him out to begin his battle with the world. He starts a newspaper, his friends promise to support him, but in the hour of need he finds promises like three-cent chimneys—easily broken. If he refuses to associate with Tom, Jim and Jack they say he is stuck up, and if he makes intimates of everybody, he is courting public favor. If he publishes all the news, science, statistics, foreign reports, then look out; they say he is too fresh. If he doesn't make a personal of every one in the town they feel slighted, and if he does he will be like to be personalized, and get his head punched."

A Small Fox Scare.

Indiana is threatened with small pox from three directions, and the state board of health thinks that extra precaution will have to be exercised by the county health officers, or the result may be an epidemic as severe as that which some portions of the state have just recovered from. The greatest danger is in the northern portions, especially about Chicago. Several railroads run into the state from west and reports to the state board say nearly two hundred cases have developed at Chicago. It is not known that the Chicago officials are preventing exposed cases from coming into Indiana. Cases are also reported in southern Michigan and western Ohio. The state board is instructing the county boards to be on the alert for travelers who have been exposed. It may become necessary to inspect the trains from Chicago. Secretary Metcalf, of the state board, will manage the inspection at Hammond.

Insley is Fined \$100.

The case of State of Indiana vs. Marion Insley, charged with assault and battery with intent to commit rape was set for trial in the circuit court here today. The case came from Crawfordsville, and was quickly disposed of. The defendant pleaded guilty to assault, and the prosecutor entered a nolle as to the intent part. The plaintiff in the case was Ida Blankenship, who was employed in a laundry at Crawfordsville when the alleged assault was made. After hearing the statements of the attorneys in the case Judge McGregor fined Insley \$100. In a talk with the Crawfordsville people some of them thought Insley escaped easily, while others considered the judgment about right. Those called here on the case were Attorneys Mike White, Wm. Reeves, Ike Davis, Winfield Moffit; Mayor Fred. Bandle, Marshal John Brothers, Policeman John Grimes, John Davis and Marion Insley and wife. Insley could give no bail this morning and went to the Putnam county jail. J. M. Davis his bondsman was with him but declined to further assist Insley. Mrs. Insley was very much affected at the outcome of the trial when it was determined that her husband would have to accompany our sheriff.

We know of no cause, unless it was because a slight reprimand that Mr. Williams gave during his sermon to young people that were disturbing the meeting. ART OFFER

"Shepp's World's Fair Photographed."

For the Daily Banner Times Readers

A Magnificent Art Series Within Reach of All!

A Most Beautiful Souvenir.

With a desire to again promote the interests of its readers, THE DAILY BANNER TIMES closed a contract with the famous Globe Publishing Co., of Philadelphia, by which the magnificent series of photographs, with descriptive matter, known as "Shepp's World's Fair Photographed," will be brought within the marvelously low purchasing price of TEN CENTS in cash or stamps, and SIX DAILY BANNER TIMES COUPONS.

This splendid chance to secure these magnificent photographs is without a parallel in journalistic enterprise, and is quite in keeping with the continuous efforts of THE DAILY BANNER TIMES to please and benefit its readers. It is, in addition, another convincing proof that THE DAILY BANNER TIMES sticks resolutely to its determination to be THE PAPER OF THE PEOPLE.

It should not be forgotten that Messrs. Shepp's famous series of photographs were OFFICIALLY INDORSED BY the Columbian Exposition, and the Globe Publishing Co. was given exclusive rights to publish and sell these photographs. They are an immensely valuable and important souvenir of the greatest exposition ever held, and at the price offered to readers of THE DAILY BANNER TIMES millions of copies ought to be sold. As thousands of people will want the series, not only for themselves, but also for their friends.

The first coupon in the series will be printed in THE MONDAY DAILY BANNER TIMES of Jan. 29, 1894, and the succeeding coupons will appear daily until the series is completed. This is a chance of a life-time to get a souvenir of the exposition, and no one should neglect to take advantage of the opportunity.

There are 32 series, and one series will be offered each week.

Remember that you must have SIX COUPONS OF THE DAILY BANNER TIMES in order to obtain, on payment of TEN CENTS, the FIRST PART (Part I) of the series. Due notice will be given of the publication of PART II, and the additional parts will follow as rapidly as they can be handled. Ample preparations have been made to supply the demand, so that nobody may be disappointed.

IN ORDER TO AVOID THE RUSH, applications should be made promptly, as soon as the Coupons appear in THE DAILY BANNER TIMES.

The well-deserved reputation of the Shepp Brothers, whose firm is known all over the United States and in Europe, is a guarantee that "Shepp's World's Fair Photographed" will be issued in their usual first-class style, and that neither pains nor expense will be spared to make it worthy of the great event which it so graphically, thoroughly and ably portrays.

The delayed trains of the past
few days are all on time again, and
the short blockade is over. One re-
markable feature of the great storm
was the absence of any serious ac-
cidents on the roads or in the yards.
There were a few mishaps, however,
none of which are worthy of note,
as the damage was confined almost
entirely to delay in traffic.

A man was in the city from Bra-
zil this morning seeking his daugh-
ter whom he suspected of having
been unduly intimate with a col-
ored youth of this city, who had
worked at Brazil. The girl, a do-
mestic, was found and questioned
by the authorities as to the matter,
but she denied any such action.
She accompanied her father back

as follows: President, Maude
Cole; vice pres., Bettie Crawley;
sec. and club reporter, Lillie Craw-

A decidedly brilliant social suc-
cess was the entertainment of the
Gentlemen's Reading club by the
Women's Reading club at the re-
sidence of Dr. and Mrs. G. C.
Smythe, corner of Vine and Walnut
streets, last evening. The house
was crowded with seventy-five or
eighty guests. A literary program
was carried out with much enter-
tainment to all assembled. Re-
freshments were served and a very
pleasant evening was enjoyed. The
guests departed at a late hour.

The Monday Night club gave a
masquerade party last night at the
residence of Dr. and Mrs. Orsa
Overstreet on Seminary street that
was a decided success. The cos-
tumes were unique and some of
them very fine. The evening was
pleasantly spent in conversation,
games, etc. Dainty refreshments
were served. Those present were:

Frank Hays, Chas. Barnaby, Ruck-

Max Ehrmann, and Misses Sidelia

"The White Squadron," the big
naval drama, will be presented at
the opera house Saturday, Feb. 17.
It appeals to the popular taste by
reason of its patriotic sentiment
and character drawings. The com-
pany carries several car loads of
scenery, and the tropical beauty of
Brazil is reproduced in all its
splendor. The "Congress of Na-
tions" in Rio Janerio to protest
against the brigandage tolerated in
Brazil forms the basis of the plot,
which unfolds a romantic love in-
terest. The Grand Plaza in Rio,
one-fourth a pillaged monastery, in
the interior of South America, and
the harbor of Rio are among the
principal canvasses. Another novel
feature will be the representation
of the American navy under sail
and steam. Stage ingenuity has
been taxed to its utmost in this
scene and the result is a triumph.
During the action of the third act
over 150 people appear upon the
stage. The cast is one of unusual
excellence and includes W. A.
Whitecar, Elmer Grandin, Gail
Forrest, Tessie Deagle, Frederick
Julian, Edna Post, John T. Burke,
Laura Almossinno and J. J. Cole
man.

SECRET SOCIETIES.**KNIGHTS OF PYTHIAS.**

Grand Chancellor J. B. Conner, District of Columbia—Helmets Glits.

Bro. Conner was made a Knight in October, 1871, by Excelsior lodge, No. 14, of Washington, of which lodge he is still a member. He rose to the position of chancellor of the lodge and later was a representative to the grand lodge. In 1892 he was elected grand lecturer and was also appointed grand vice chancellor. In 1893 he was elected grand chancellor without opposition, which position he has acceptably filled. Bro. Conner was one of the charter members of the first division of the uniform rank of Washington, serving that division during the greater part of its existence as Sir Knight recorder. He is also a member of the endowment rank of the order and may justly be termed a Knight of Pythias.

J. B. CONNER.

Fort Madison, Ia., has four lodges, one division of the uniform rank and one temple of Pythian Sisters.

St. Louis has two new divisions in sight and the thirty-first subordinate lodge.

The Knights of Pythias number about 500,000, distributed among nearly 6,000 lodges.

The supreme chancellor of the Knights of Pythias has decided that no member can join the order known as the Pythian Sisters, and, furthermore, that such who are now members must withdraw.

Kansas City division has a cornet band.

ODD FELLOWS.

Funeral Benefits in New Hampshire Jurisdiction—Various Notes.

In New Hampshire it is optional with a subordinate lodge to pay a funeral benefit on the death of a wife or not. If, however, it is proposed to pay such a benefit, the provision must be contained in the bylaws of the lodge. For many years the law made it obligatory. But the inequality and injustice of the law became apparent, and the national lodge, but to make it binding even in such lodges the provision had to be incorporated in the laws of the lodge.

Pennsylvania has received about \$10,000 from individual donations for its Odd Fellows' home.

In Kansas grand officers are elected by the past grands in the subordinate lodges.

In Odd Fellow tradition the origin of the order is credited to the Jews, who carried it to Rome, and the Roman soldiers in turn brought it with them to Great Britain and other places.

Bro. A. G. Wolford of Topeka has been for 57 years an Odd Fellow. He accompanied Grand Sir Wilsey when the latter made his trip south and west in the summer of 1838 and assisted him in instituting lodges in Illinois.

Golden Rule lodge, No. 21, District of Columbia, did the right thing Christmas by presenting each of its widows with a \$10 bill.

The grand lodge of Kansas makes the veteran jewel free to those who are entitled to wear it.

Massachusetts has more than 40,000 Odd Fellows.

The Odd Fellows of Peoria, Ills., inaugurated the new year by dedicating their new and handsome temple.

Brigadier General C. H. Holden of New Bedford is the department commander for Massachusetts and Brigadier General Henry A. Farrington for New Hampshire.

All the effects of Takoma lodge, No. 24, of the District of Columbia were destroyed by fire recently.

Bro. James King, favorably known for his work as chairman of the committee for the distribution of the order's benevolence in connection with the Johnstown (Pa.) disaster, is still actively working for the order.

RED MEN.

Degree of Pocahontas a Benefit to the Order—Along the Trail.

The rapid increase and phenomenal success of this great auxiliary to the order have proved the wisdom of its organization. In all great reservations where there has been the greatest activity in organizing councils of this degree we find a corresponding advancement in the tribes of the order.—Great Incoherence.

The great council of the United States meets annually at some place selected at the previous session and is a very expensive affair. There is a sentiment in many quarters that expense should be reduced in the representatives to be proposed. Why not hold biennial sessions?

The Improved Order of Red Men now number over 15,000 in New York state, a record for any order.

The first great prophet only is entitled to be created a past great sachem by dispensation.

State great councils cannot grant permission to tribes to use the old adoption ceremony.

Grand Fraternity.

The pension reserve fund is, according to the report of the treasurer, invested in bonds deposited with the City Trust company and amounts to over \$40 for each member of the order. This is a surplus accumulated on account of the annual pension of \$200 to \$300 paid to the widow or minor children of a deceased member. The Grand Fraternity is the only society providing for a continuous pension benefit during the life of the widow or the old age of the member himself.

The order is growing rapidly in New Jersey. New camps have been instituted in Jersey City, Beverly, Camden and Bridgeton, and others are under way.

Fraternal Miscellany.

Michigan commanderies, Order of the Red Cross, are generally increasing in membership.

Past Supreme Warden Whipple, New England Order of Protection, has again been elected mayor of Brockton, Mass.

The Golden Cross grain in Massachusetts has been favorable since Grand Commander Talbot's election in April, 1893 having been admitted.

MASONIC.

Pennsylvania Grand Lodge Installs Officers.

The annual grand communication of the grand lodge of Pennsylvania was held on St. John's day. Right Worshipful Grand Master Michael Arnold presiding. The appointments of the various committees for the ensuing year were made and the following officers installed: R. W. grand master, Michael Arnold; R. W. deputy grand master, M. H. Henderson; R. W. senior grand warden, William J. Kelly; R. W. junior grand warden, Henry W. Williams; R. W. grand treasurer, Thomas R. Patton; R. W. grand secretary, Michael Nisbet.

The Freemason of Toronto is working for reform of the proxy system and for the abolition of the past masters' vote.

All light is from God, and yet cynosure, as spurn Masonic light. They profess great loyalty to Jesus Christ, but their real allegiance is to the "almighty dollar."

President Diaz of Mexico is grand counselor of the thirty-third degree of sovereign grand inspectors general of that country.

The Masons of Pennsylvania made New Year's day a grand one for their Masonic home, and their contributions reached up into thousands of dollars besides many supplies.

The Masonic grand lodge of Missouri having made request that return be made of the charter issued by it a number of years ago to lodge 520 of the City of Mexico, that lodge will shortly reorganize under a new charter to be granted by the Gran Dieta Simbolica of the United States of Mexico.

Companion Henry T. West of Greeley is grand high priest and Companion Ed C. Parmelee grand secretary of the grand chapter of Colorado.

The annals of the grand commandery of Knights Templars of New York for 1893 are embellished with very fine steel portraits of Sirs Edward L. Gaul and George W. Walgrove, past grand commanders.

In Arizona Bro. Dayton A. Reed of Phoenix is now grand master of Masons and Bro. George J. Roskrug of Tucson grand secretary.

Dec. 27, 1893, Hancock lodge, No. 30, F. and A. M., at Carthage, Ills., celebrated its fiftieth anniversary.

Companion W. B. Isaacs, grand secretary of the grand chapter of Virginia, was the recipient recently of an elegant easy chair as a souvenir of his 50 years' service in the grand chapter.

A. O. U. W.

Enormous Sum Paid by the Order to Beneficiaries—Various Notes.

The amount of beneficiary payment made by the A. O. U. W. during the first 10 years of its existence, up to the year 1879, amounted to \$1,506,446. During the next 10 years, to 1889, the amount was \$2,825,967. For the succeeding five years, to 1894, making an estimate for the balance of the year 1893, the amount that will be paid to beneficiaries will exceed \$26,500,000.

Canada is only two assessments ahead of Minnesota this year. The cold countries keep the death record down as low as the warmer climates.

A grand lodge of the degree of honor of the United Workmen has been instituted in Missouri.

Grand Recorder Lavin of the Dakotas says, in making his monthly report, "It will be worth your while to keep your eye on us during the next four months."

The grand lodge of Missouri meets in St. Louis on the second Tuesday in February.

Nineteen jurisdictions show an increase for November.

The Order of Workmen has lost by death 22,466 members. What a vast number of families have been benefited by its charities!

KNIGHTS OF HONOR.

Assessments Levied For January—Notes From Near and Far.

Three assessments have been levied for January. The assessment notice has 192 deaths, of which 78 remained unpaid Dec. 14. Pneumonia carried off 23 and consumption the same number, while Bright's disease had 9 victims. Five were suicides, 3 were murdered, and 6 deaths were caused by accident.

The total death benefits paid to Dec. 14, 1893, amounted to \$45,041,411.81.

The deputy grand dictators of the city of New York have been thoroughly organized for fraternal work under the leadership of Grand Treasurer A. C. Searles, as chairman of the board, and have laid out a very extensive programme of visitations and union meetings of lodges during the winter.

Grand Dictator Allen of Ohio is working hard to push the order in his jurisdiction.

Grand Dictator J. G. Ransom of Pennsylvania has secured the services of Bro. George A. DuBree as deputy at large. Bro. DuBree, it will be remembered, was the deputy who accomplished so much last year under Grand Dictator Goheen, adding almost 800 members in 16 months.

Chosen Friends.

The order pays benefits of \$1,000 to \$5,000 on the death of a member and from \$500 to \$1,500 for disability. Since its organization in 1890 it has paid out over \$7,000,000 in certificates and has paid for the relief of its disabled members over \$7,000,000.

In the coming year particular attention will be paid to establishing councils in the west and northwest, where the order is just coming into general notice.

The order was organized in May, 1879, under the general laws of Indiana. It is a fraternal and beneficial society and has over 40,000 members.

Degrees For Women.

The tendency in nearly all orders is to provide degrees for the ladies and to form auxiliary branches for their benefit. In Masonry we have the order of Eastern Star; in Odd Fellowship, the Rebekah lodges, and in most all the fraternal fraternities chapters, sections or branches which are composed of and controlled by the lady members of the families of the general brotherhood of the organizations. Some orders have a membership in their lodges of both sexes without providing special branches for them. All this indicates an appreciation of the value of woman's work and influence.

Royal Arcanum.

New York is the banner state of the Royal Arcanum, and Brooklyn is the banner city of the United States.

As near as can be estimated by the supreme council office, there are 146,974 members of the order in good standing. There are now 1,540 councils.

The total payments in the W. O. B. fund to Nov. 30 were \$55,089,002.20.

Rhode Island on Dec. 1 had 1,350 members.

Boston council has a membership of 352, a gain of 17 for the year.

Met Through a Matrimonial Bureau.

BARBOURVILLE, Ky., Feb. 15.—A Chicago matrimonial bureau introduced Lillie Joice to Henry Driden, the bank clerk at Charleston, W. Va., who suicided Tuesday. She lives near here and is supposed to be the cause of the suicide. Miss Joice is known to have corresponded with Mr. Driden in Charleston and it is rumored that they were engaged.

OUR MODERN LAMPS.

They Are Constructed on Artistic and Scientific Principles.

The modern lamp constructed on scientific principles has been brought to an almost perfect state as a source of light. Another accepted fact is its great development from an art standpoint. Many of the choice table lamps are veritable objects of virtue, illustrating modern progress in decorative art. Some of the bowls are of pierced brass, the pattern taking the form of daisies and other floral compositions, and again the fretwork takes the form of magnificent scrolls and arabesques. Other lamps are magnificent combinations of porcelain and gilt bronze. Not only are lamps constructed in enriched metals and in combinations of porcelain and metal, but there are others made of porcelain, oxidized silver, iron filigree work, bisque and wedge-wood ware.

The shades are of double glass differently colored inside and out, the interior of the shade being usually white, while the exterior is in Roman pink, lemon yellow, pale pink, cream and varying shades of green. Others are opalescent and lustrous with the varying gleams of mother of pearl. Many of the lamps are further enriched with silken shades of silk, enriched with flounces of lace. The materials of others are silk chiffon, crape and crinkle silks in delicate shades of lemon yellow, pale pink, the colors of sunrise and sunset, orange, blue, and many of the confections are further decorated with flounces of lace and wreaths of flowers.

The most sumptuous lamps of all are the pedestal or piano lamps, whose burnished standards resembling twisted gold are supported from tables and cabinets.

World's Fair in Water Colors.

Something Worthy of Note.

People Who Saw the Fair May See It Again.

Those who did not see it may have it brought to their homes where they can visit it in their own parlor and by their fireside.

HOW CAN THIS BE?

The BANNER TIMES has made this possible by its readers taking advantage of our offer below and securing one of our

World's Fair in Water Colors.

With it the Great Columbian Exposition can be seen again in all its grandeur and beauty. All those wonderful structures which made the White City noted the world over for the beauty of their architectural features can be looked upon and studied at leisure. All the lovely hits of scenery which made the grounds so attractive are reproduced in their natural colors and will again afford enchantment to the beholder. No important feature of the Fair has been left out, and the accurate descriptions which accompany the views, give an excellent and entertaining history of the GREAT-EST EVENT of the nineteenth century.

The World's Fair in Water Colors

Consists of a careful selection of buildings, land scapes and scenes about the exposition grounds, reproduced in water colors—twenty-two in all enclosed in a beautiful portfolio or case forming a lovely and at the same time a safe receptacle for so rare a prize.

NOTHING • LIKE • IT • UNDER • THE • SUN.

The only set of Facsimile Drawings in Water Colors illustrating the World's Columbian Exposition at Chicago by the celebrated artist Graham.

Every Sketch in the Collection is a GEM.

The next best thing to an actual visit to the World's Fair is an examination of these beautiful water colors. No picture in black and white can convey the faintest idea of the real appearance made on Midway Plaisance by the brilliantly arranged Turks, Arabs, Indians, and the many other nationalities to be seen there. The life, the warmth, and the spirit of these pictures make them captivating to both young and old and render them more satisfactory than they could possibly be if they were in plain black and white.

OUR PROPOSITION.

We now offer this handsome collection of art gems complete and one month's subscription to our DAILY BANNER TIMES for

\$1.50.

This is the regular retail price of the water colors alone, and they can not be had anywhere for less. Call at our office and examine t.
